Following the completion of the offering, Cenveo will hold an interest in the Fund through ownership of 11,447,439 units or 36.5% of the issued and outstanding units. Robert G. Burton, Chairman and Chief Executive Officer of Cenveo, stated:

“The successful completion of this IPO represents another positive step as we continue the transformation of Cenveo. This transaction will deliver significant capital to our balance sheet and allows us to pursue domestic growth opportunities. We were able to sell our stake to the market at an enterprise value of approximately 8X EBITDA, which is consistent with our earlier expectations and represents a meaningful premium to other M&A transactions in the industry.”
